## PROFESSIONAL EXPERIENCE

As the Director of Planning and Principal of DDG, Rajesh Gulati is responsible for the conceptual, schematic design and design development of a wide variety of project types. Raj thinks on a monumental scale, completely undaunted by immense projects with complex infrastructure planning for highways, bridges, land reclamation and utilities, while his significant architecture and landscape talents simultaneously ensure that all design elements, from macro to micro, support an impeccable master plan – and he has vital understanding that projects must feed flawlessly into marketing strategies.
